Introduction:

(Active Applicable and Tolerant Version 9.0.0.23, Winter-Spring 2025)

“A Rebel with a Cause, one of the most sophisticated & elitistic Systems Noetic Variabilities Engineers, Logician, Mathematician, Psychiatrist, Serial Entrepreneur, Philosopher, and Business Engineering Consultant of our times, and appointed Knight to the IsseraticBrotherhood, the Order of Saint Catherine in Alexandria, Egypt, the Order of the Phoenix, the Royal Order of Brittain, and the BavwalleBrotherhood. With a clear conviction and a sharp vision for the future of humanity, its values, and its cause. Fighting for a brighter future and a new realism that will create an impetus of radical change towards a better, uplifting & severe philanthropic tautochronous Atomistic & Holistic Humanism during the 21st century and onwards to the 22nd and 25th century AD.”

I am a devoted, erudite lover of science & technology and the severe life economies that both these aspects brought about and, consequently, cast over.

I apply my skills and knowledge as:

1. Professional Logician that is entangled to Extreme/Severe Logic, specifically called Logienirt;
2. Strict Mathematician working on the theories of networks of numbers and logical states of modular and modelar groups and the GEN AI environments that deem to explain coastal interactions.
3. Benefiting Noetic Variabilities Engineer (NVE) who makes treatments on Seizures of Noetic Logic and the Variability Noosphere of the Noetic Corpus, especially the one applied to Marketing Management Environments
4. Masterful Psychiatrist involved in the core research around paranoia, schizophrenia, bipolar, and Corestate Depression(s) Incidents, and its core symptomatic effigies that affect the Political, Economic, and Social Life of a select mastering-skills community, or further any endeavor in the human affairs whatsoever.

I research various topics of science and technology, assisting as a knowledgeable master:

1. The Pentagon, Washington D.C. Operations to develop new procedures around core Knowledge, Informatics & Information Arenas, Ordinant Neuroinformatics, and Applied Ordinant Systemic Neuronetworking (System Netronics) on Gen AI, and Bonders AI environments.
2. More than 283 global or Fortune 500 companies, as an Individual Private Researcher (IPR) on various subjects of my core mastery skills (follows analytical list in next section), along with numerous (=more than 2,357,003) other co-replying and co-assigned researchers and scientists, from various American, British, German, Canadian, Greek, and Japanese Universities
3. As a Private Researcher (PR) for the Global Knowledge & Gnostic Network, a platform/system that provides clues for the growth, dissemination, storage, and final information fathoming of the procedures of core manifestable experiences turned into knowledge (due Q4 of 2029 as <https://nextrend.co.uk>); <https://nextrend.com.jp>
4. On the Economic Lives and the Core Capitalism(s), sustaining to produce an edifice of networked decisions that can support the Global and PanCosmic Economies;
5. As a Private Consultant (PC), running on segments of interest that can produce a better organization, edifice, and formal economic structure for the Planet Bavyllion Hebanagoshu 8859A=Dravoss3 Attilah49 Termentra43 Earthan-9=Agron3, our planet Earth, as we know it.
